## Cleveland Adolescent Sleepiness Questionnaire

Today's Date: (fill in) $\qquad$ 1 $\qquad$ / _ _

What is your age? (fill in years) $\qquad$ What is your sex? (check one) 1. Female
2. Male

We would like to know about when you might feel sleepy during a usual week. For each statement, mark the circle under the response that best fits with how often it applies to you. It's important to answer them yourself - don't have people help you. There are no right or wrong answers. For example, if we asked "I sleep with a pillow," and the response that best fit how often you sleep with a pillow was "often," you would mark the item as follows:
$\left.\begin{array}{ccccc}\hline \text { EXAMPLE } & \begin{array}{c}\text { Never } \\ \text { (0 times } \\ \text { per } \\ \text { month) }\end{array} & \begin{array}{c}\text { Rarely } \\ \text { (less than 3 } \\ \text { times per } \\ \text { month) }\end{array} & \begin{array}{c}\text { Sometimes } \\ \text { (1-2 times } \\ \text { per week) }\end{array} & \begin{array}{c}\text { Often } \\ \text { (3-4 times } \\ \text { per week) }\end{array}\end{array} \begin{array}{c}\text { Almost } \\ \text { every day } \\ \text { (5 or more times } \\ \text { per week) }\end{array}\right]$

## Total Score:

$\qquad$
How sleepy are you? A higher score means that you are sleepy during the day and need to get more sleep on school nights. A higher score also could be a sign that you may have a sleep disorder called obstructive sleep apnea (OSA).
You should discuss your score with your parents and your doctor.
